Getting Started Microsoft Power Point 2007

Getting started with PowerPoint 2007 you will notice that there are many similar features to previous versions. You will also notice that there are many new features that you'll be able to utilize. There are three features that you should remember as you work within PowerPoint 2007: the Microsoft Office Button, the Quick Access Toolbar, and the Ribbon. The function of these features will be more fully explored below

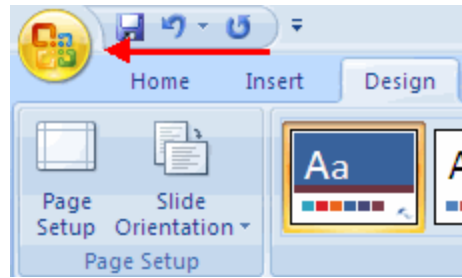

Presentations

A presentation is a collection of data and information that is to be delivered to a specific audience. A PowerPoint presentation is a collection of electronic slides that can have text, pictures, graphics, tables, sound and video. This collection can run automatically or can be controlled by a presenter.

Microsoft Office Button

The Microsoft Office Button performs many of the functions that were located in the File menu of older versions of PowerPoint. This button allows you to create a new presentation, Open an existing presentation, save and save as, print, send, or close.

Ribbon

The ribbon is the panel at the top portion of the document. It has seven tabs: Home, Insert, Design, Animations, Slide Show, Review and View. Each tab is divided into groups. The groups are logical collections of features designed to perform function that you will utilize in developing or editing your PowerPoint slides.

Commonly utilized features are displayed on the Ribbon. To view additional features within each group, click the arrow at the bottom right corner of each group.

Home: Clipboard, Slides, Font, Paragraph, Drawing, and Editing

Insert: Tables, Illustrations, Links, Text, and Media Clips

Design: Page Setup, Themes, Background

Animations: Preview, Animations, Transition to this Slide

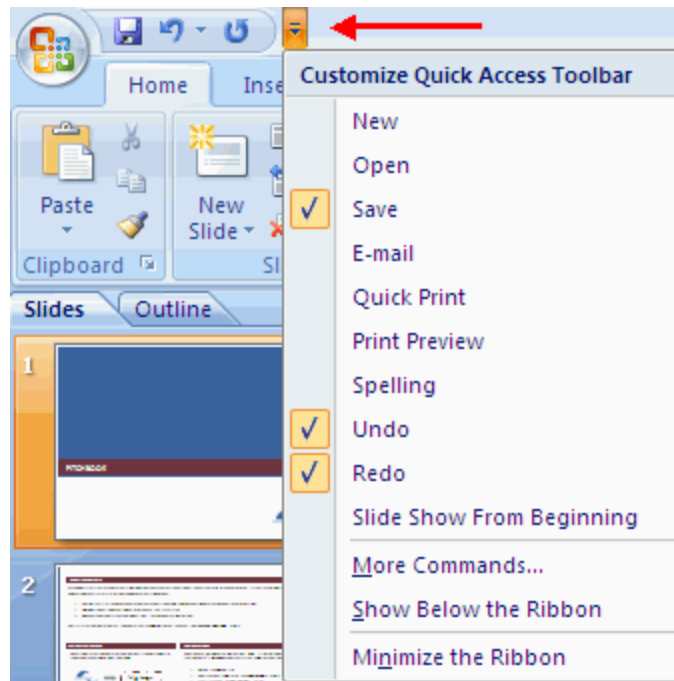

Slide Show: Start Slide Show, Set Up, Monitors

Review: Proofing, Comments, Protect

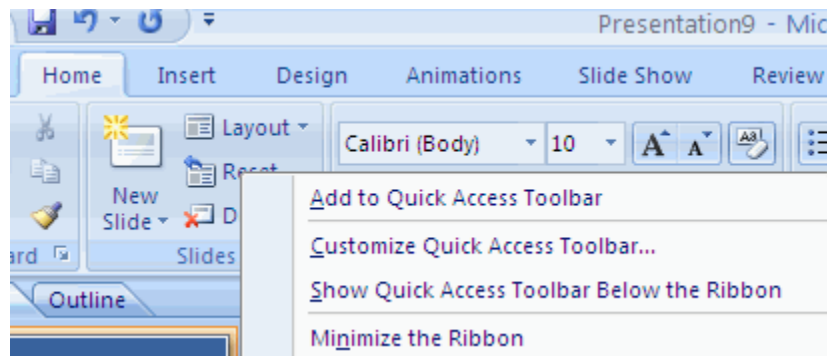

View: Presentation Views, Show/Hide, Zoom, Window, Macros

Quick Access Toolbar

The **quick access toolbar** is a customizable toolbar that contains commands that you may want to use. You can place the quick access toolbar above or below the ribbon. To change the location of the quick access toolbar, click on the arrow at the end of the toolbar and click **Show Below the Ribbon**.

You can also add items to the quick access toolbar. Right click on any item in the Office Button or the Ribbon and click Add to Quick Access Toolbar and a shortcut will be added.

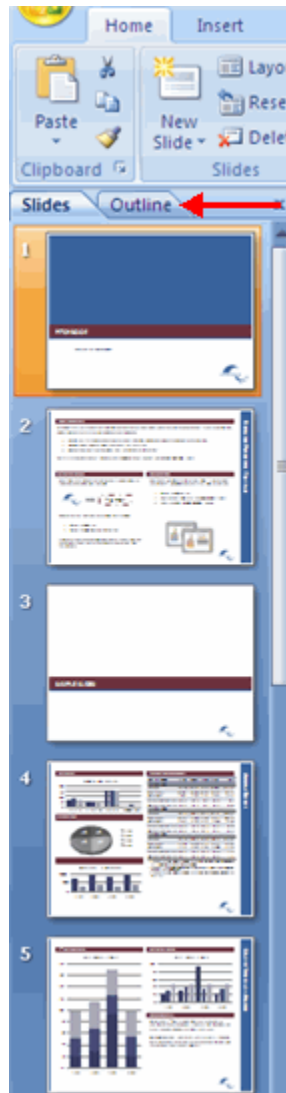

Mini Toolbar

A new feature in Office 2007 is the Mini Toolbar. This is a floating toolbar that is displayed when you select text or right-click text. It displays common formatting tools, such as Bold, Italics, Fonts, Font Size and Font Color.

Navigation

Navigation through the slides can be accomplished through the Slide Navigation menu on the left side of the screen. Also, an outline appears from materials that have been entered in the presentation. To access the outline, click the outline tab.

Slide Views

Presentations can be viewed in a variety of manners. On the View tab, the Presentation Views group allows you to view the slides as Normal, Slide Sorter, Notes Page, Slide Show, Slide Master, Handout Master, and Notes Master.

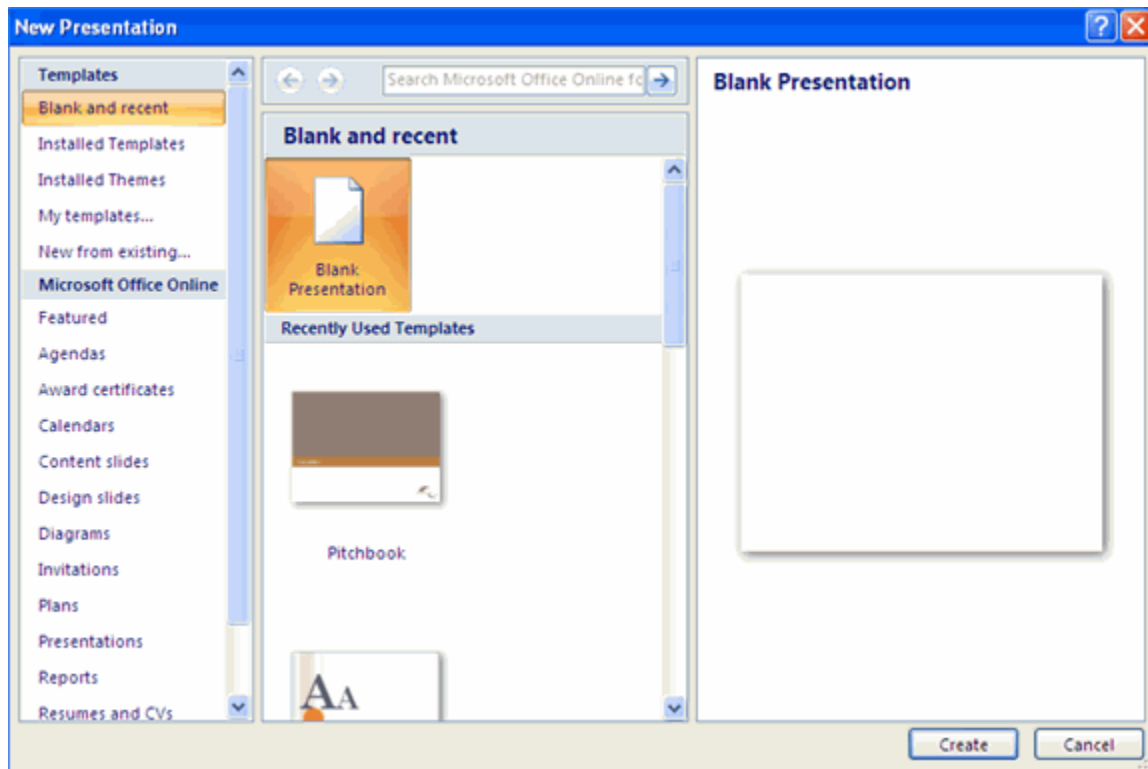

Creating a Presentation

New Presentation

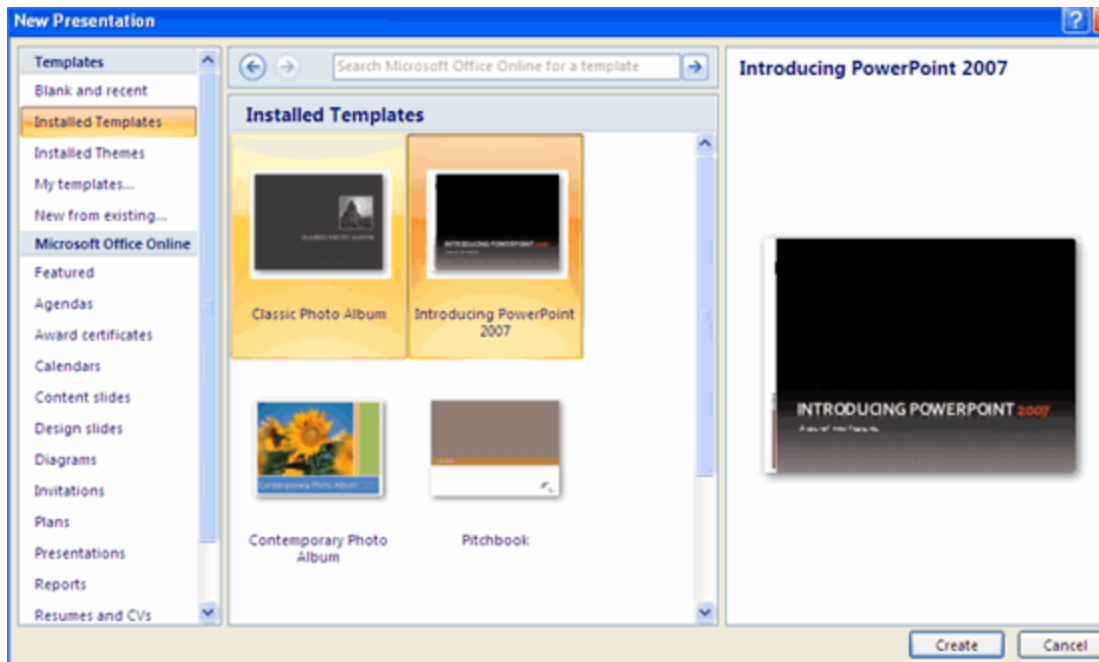

You can start a new presentation from a blank slide, a template, existing presentations, or a Word outline. To create a new presentation from a blank slide:

- Click the **Microsoft Office Button**
- Click **New**
- Click **Blank Presentation**

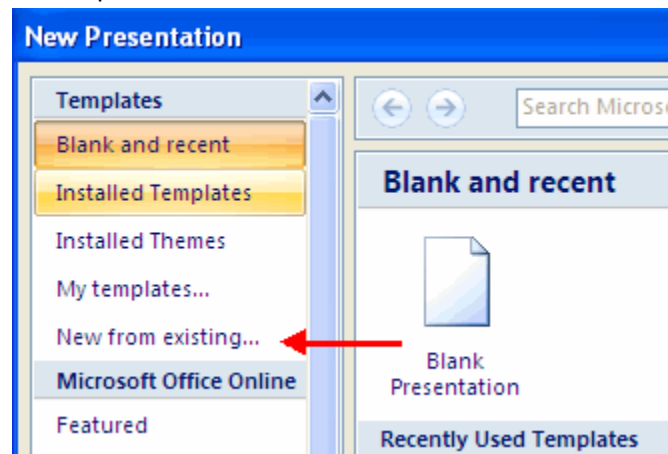

To create a new presentation from a template:

- Click the **Microsoft Office Button**
- Click **New**

- Type a name for the CD
- Click **Copy to CD** or **Copy to Folder**

PowerPoint Tips

Design Tips

- Slides should be of a consistent design throughout the presentation
- Use graphics and pictures when possible
- Remove unnecessary information and graphics
- Use contrasting background and text colors
- Keep the number of fonts used in the presentation to 3
- Keep the fonts consistent throughout the presentation

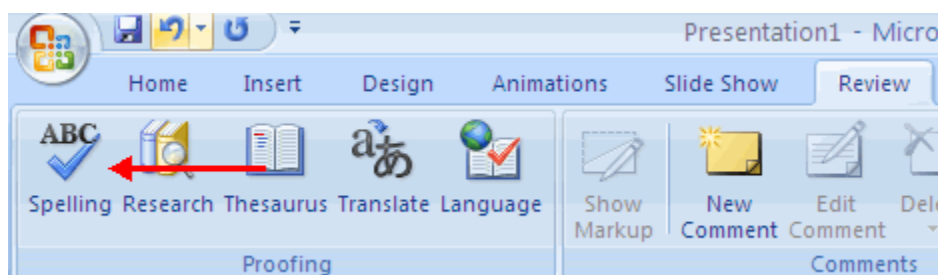

Presentation Tips

- Identify the critical information for your presentation
- Use no more than 6 bullets per page
- Bullets should be short ideas, not complete sentences (these should be your talking points)
- To start the Slide Show, Click **Slide Show** on the **Presentation Views** group on the **View** tab
- Use the arrow keys to move forward or backward in a presentation
- Press the **Escape (Esc)** key to end the slide show
- A pen tool is available for drawing on the screen with the mouse. Press **CTRL+P** or click the right mouse button at any time and a popup window will appear. Choose **Pen** and the pointer will change to a pen that allows you to draw freehand on the screen using the mouse. Press the **E** key to erase all pen strokes. Press **CTRL+A** to disable the pen feature and revert the pen back to a pointer arrow.
- If you would like to use the pen to draw on a blank screen during a presentation, press the **B** or **W** keys, or select **Screen/Black Screen** from the popup menu and the screen will turn black. Press **B** or **W** again or choose **Next** from the popup menu to return to the presentation when you are finished drawing.
- To hide the pointer and button from the screen press the **A** key.
- Be sure to preview the slide show using a projector if one will be used during the presentation. Words or graphics that are close to the edge of the screen may be cut off by the projector.

Spell Check

To check the spelling throughout a presentation:

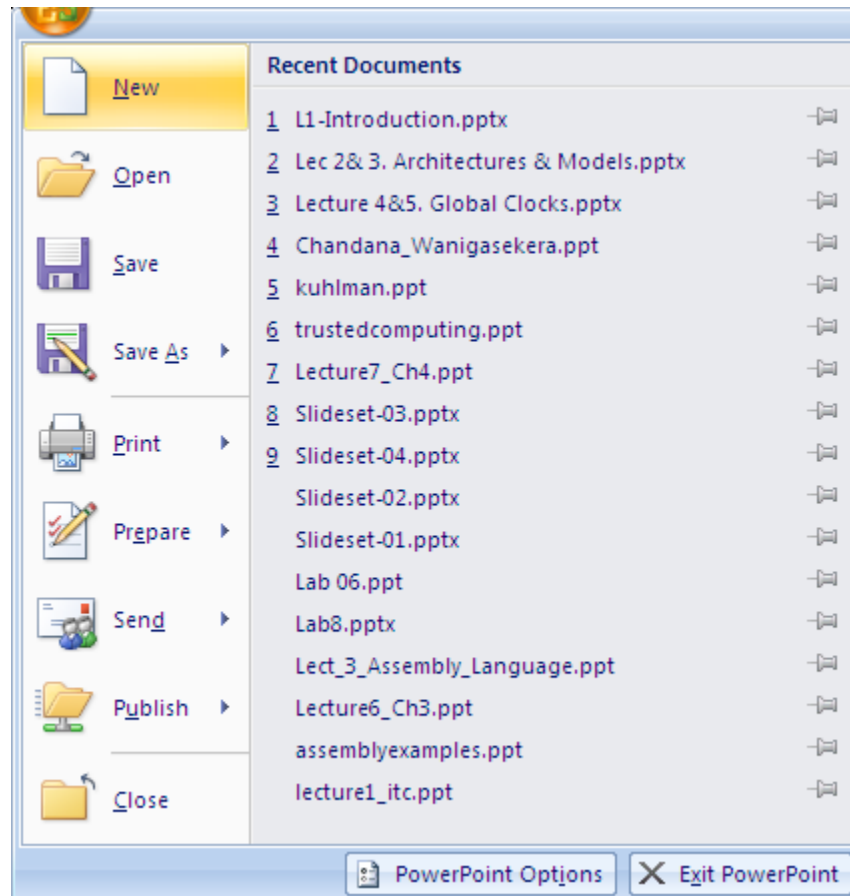

- Click the **Spelling** button in the **Proofing** group on the **Review** tab

Customize PowerPoint

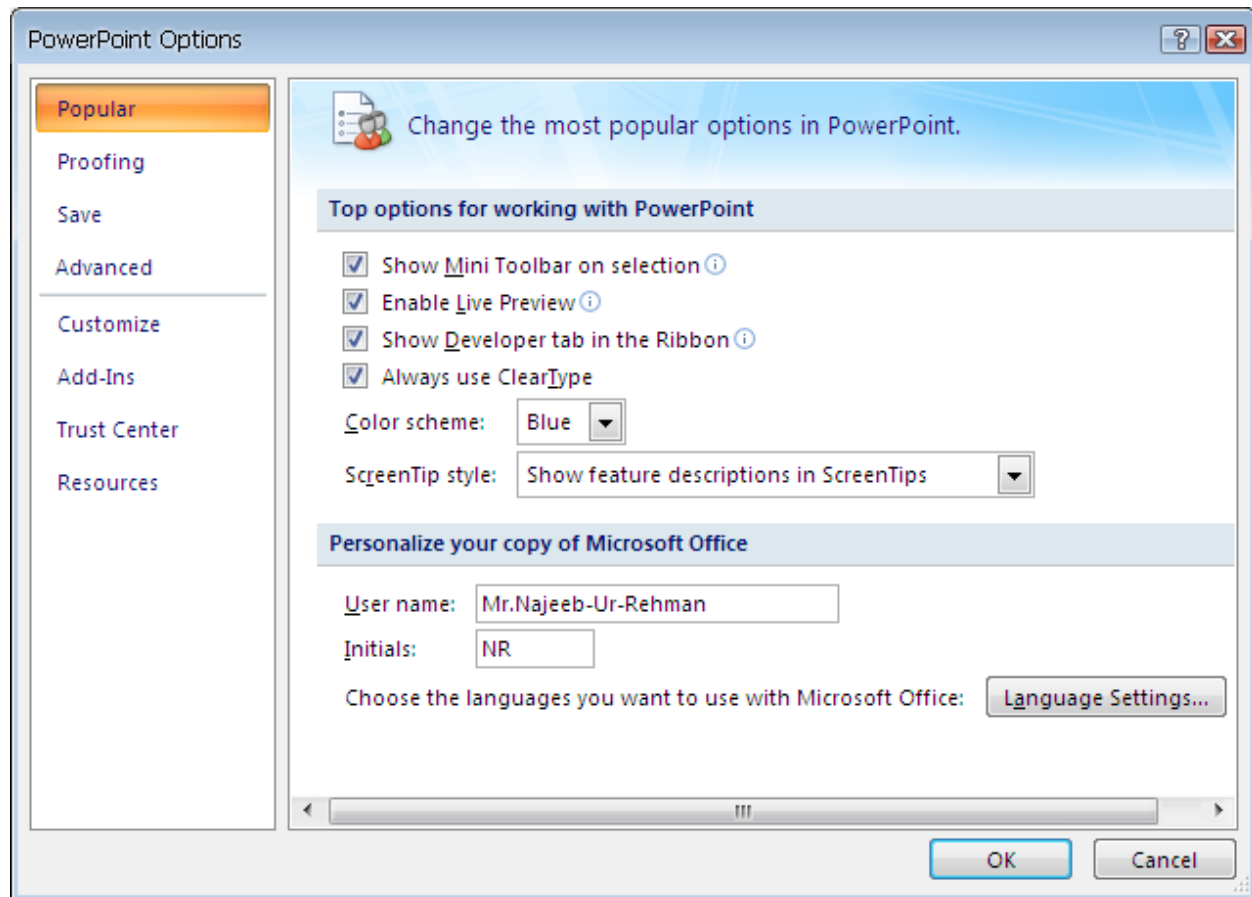

PowerPoint 2007 offers a wide range of customizable options that allow you to make PowerPoint work the best for you. To access these customizable options:

- Click the **Office Button**
- Click **PowerPoint Options** include picture of OB menu.

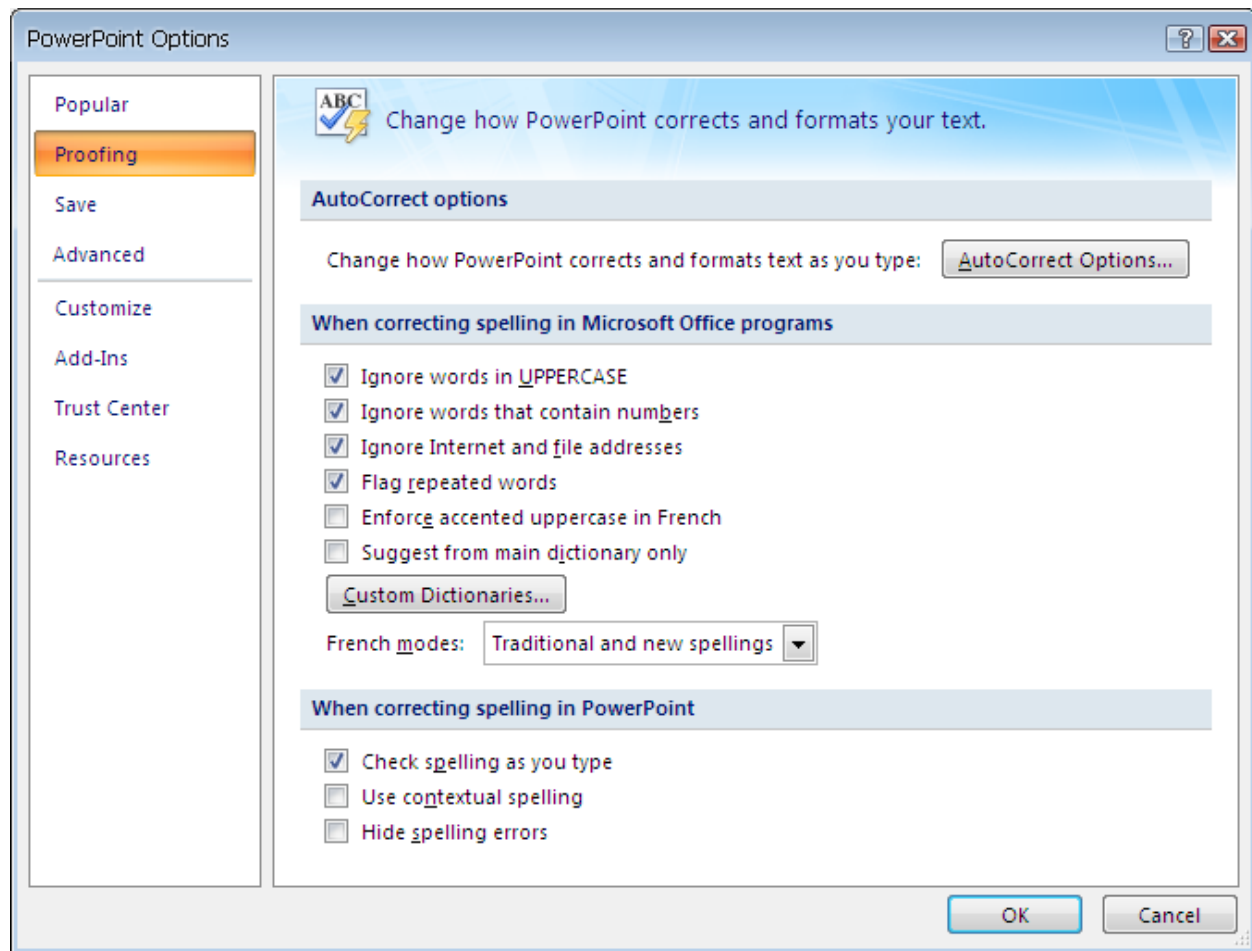

Popular

These features allow you to personalize your work environment with the mini toolbar, color schemes, personalize your user name and allow you to access the Live Preview feature. The Live Preview feature allows you to preview the results of applying design and formatting changes without actually applying it.

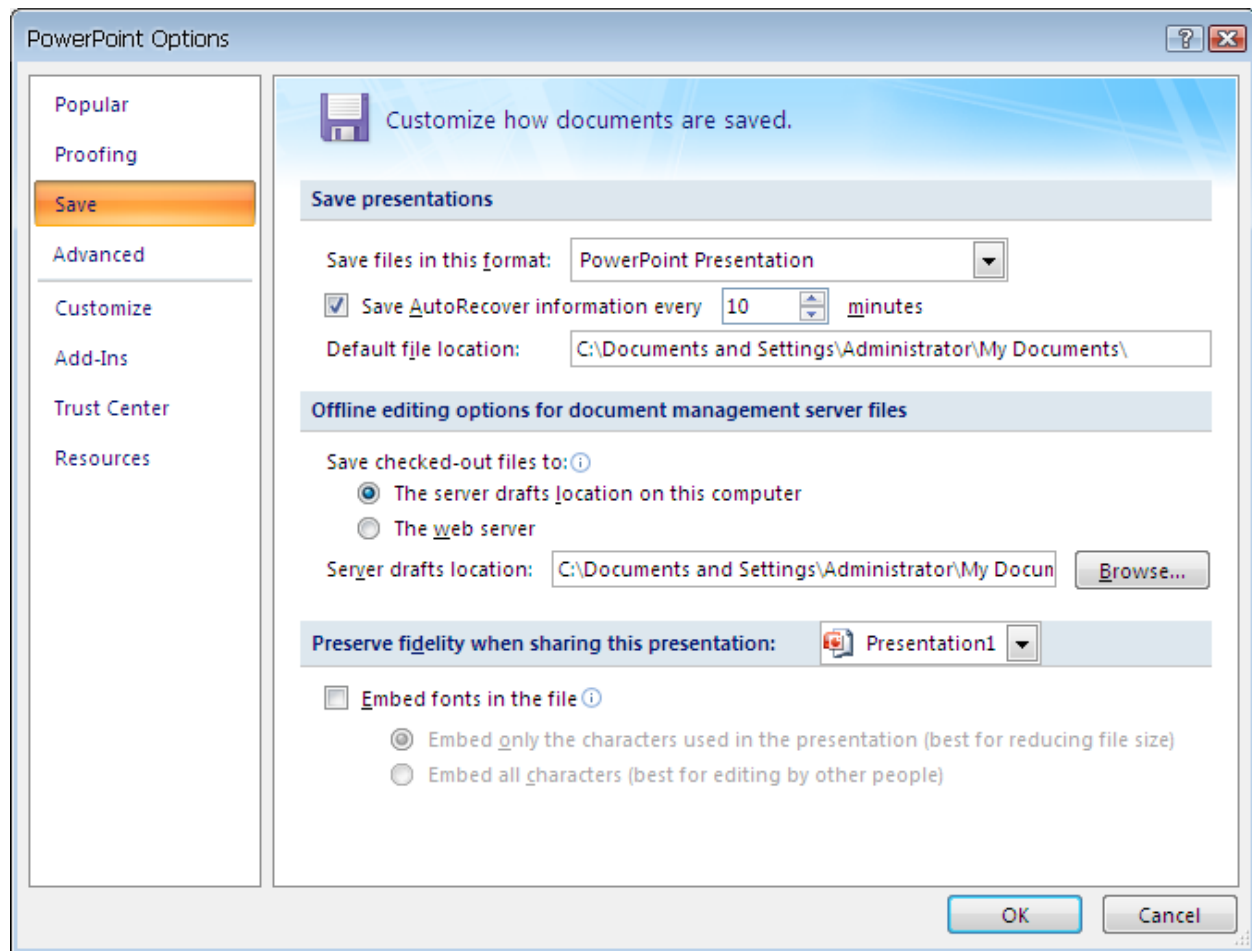

Proofing

This feature allows you to personalize how word correction works. You can customize auto correction settings and have word ignore certain words or errors in a document through the Custom Dictionaries.

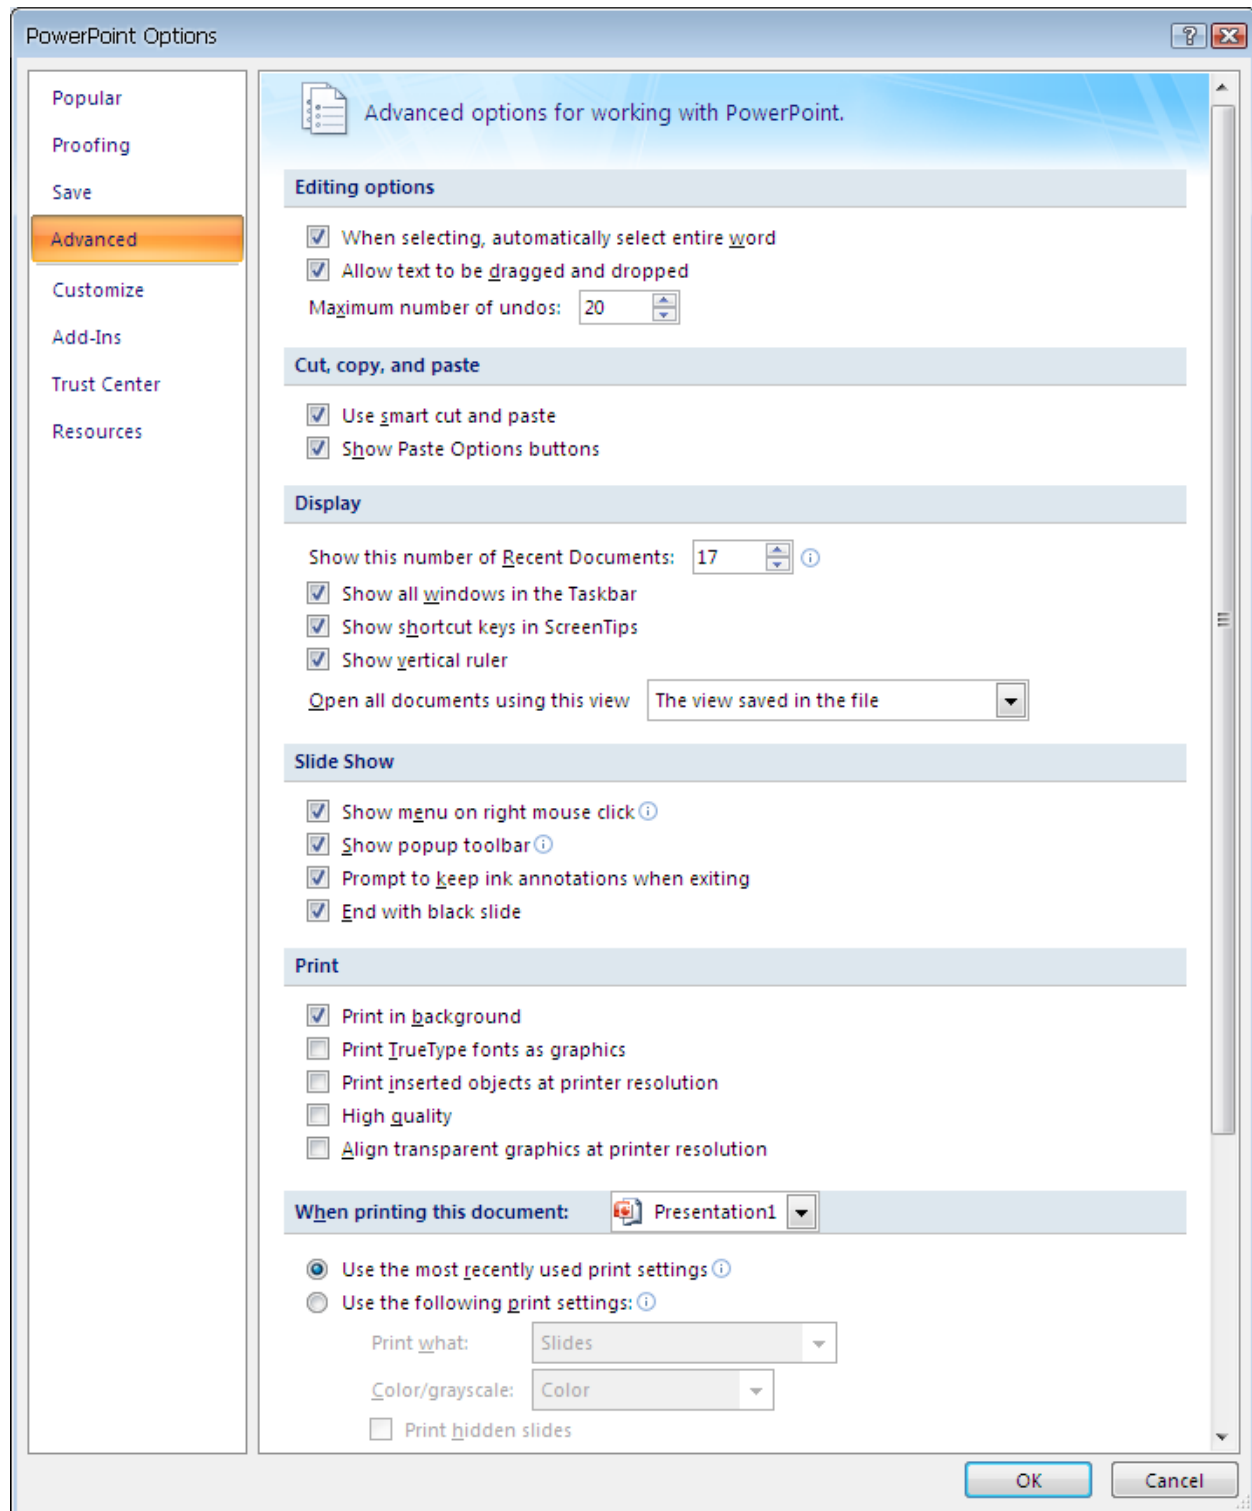

Save

This feature allows you personalize how your workbook is saved. You can specify how often you want auto save to run and where you want the workbooks saved.

Advanced

This feature allows you to specify options for editing, copying, pasting, printing, displaying, slide shows, and other general settings.

Customize

Customize allows you to add features to the Quick Access Toolbar. If there are tools that you are utilizing frequently, you may want to add these to the Quick Access Toolbar.
